Burk-Kleinpeter, Inc., a multi-disciplinary firm providing comprehensive services in the fields of Engineering, Planning, and Environmental, is seeking a Planner for its New Orleans, LA office.

Typical work assignments could include transportation and land use plans, corridor plans and evaluations, environmental studies, traffic studies as well as supporting community engagement tasks. Work would include independent assignments as well as collaborating with multi-disciplinary teams of planners, engineers and other design and environmental professionals. Travel may also be required.

Ideal candidates must be motivated, able to manage multiple projects and deadlines, be comfortable working regularly with analysis software and have a willingness to learn software platforms currently used as part of the production of studies and analyses. Clear and concise written and oral communication skills are a must. Working expertise in ESRI ArcGIS, Adobe Creative Suite, and other design software is a plus.

Candidates must have a master's degree in urban, regional, or community planning or related field, and 2 years of professional experience in urban or regional planning OR a bachelor's degree in urban, regional, or community planning and 4 years of experience in urban or regional planning. AICP credentials, or status either as an AICP Candidate or AICP member is preferred.

This is a full-time position with competitive salary & benefits package including, 401(k) plan, health insurance, paid holidays and vacation, sick leave, & 4½ day work week. Please send resumes via email to hr@bkiusa.com.
