American Institute of Certified Planners (AICP), Registration No. 017195

Professional Activities

Member, AICP Exam Prep 3.0 Product Work Group, 2013
Professional Development Officer, LA Chapter APA, 2009-2013
Treasurer, APA LA Capital Section, 2010-2011
Trainer, Louisiana Act 859 Planning Commissioner Training Workshops, 2006-2007
Facilitator, Disaster Redevelopment Workshop, Restoration 2006, New Orleans, LA, May 2006
Secretary, Louisiana Chapter of the American Planning Association, 2003-2006

Experience

2008-present **Research Associate**
Center for Energy Studies, Louisiana State University, Baton Rouge, LA

Recent projects include development of a state-wide greenhouse gas inventory, survey of vessels and emission sources at Port Fourchon for regional air modeling input, and analysis of geographic planning units used by the Bureau of Ocean Energy Management for socioeconomic impact studies. Performed analysis of moratoria economic impacts after the Deepwater Horizon oil spill. Compiled wage and demographic data using SAS programming and created Access data entry forms and reports for BP oil spill data. Served on LSU Energy Initiative Task Force to gather research grant data on LSU projects.

1-3/2013 **Community Planner**
Federal Emergency Management Agency, Baton Rouge, LA

Ms. Perry met with officials in St. John the Baptist Parish to build planning capacity after Hurricane Isaac. Assisted with pre-disaster recovery planning for New Orleans as part of FEMA's National Disaster Recovery Support group. Worked with officials and the public to develop and prioritize recovery planning projects and identify federal and state funding sources.

2006-2008 **Scientist 5/Planner 3**
Shaw Environmental & Infrastructure, Baton Rouge, LA

Project Manager for Red River Waterway Commission Strategic Plan—identified revenue sources, construction costs, operation and maintenance requirements, and projected future needs and trends. Gathered data on parks, employment, and river improvement projects for RRWC Economic Impact Study. Identified goals and action items, coordinated formation of Advisory Committee and prepared for stakeholder meetings for the Amelia Revitalization Plan in St. Mary Parish, Louisiana. Updated Ascension Parish's hazard mitigation plan, including public workshops with stakeholders, data needs

assessment, identification of hazard mitigation priorities, and compliance with FEMA requirements.

1998-2006 **Senior Environmental Planner**
URS Corporation, Baton Rouge, LA

Worked with FEMA Long-Term Recovery Assistance after Hurricanes Katrina and Rita to help East Baton Rouge Parish develop potential recovery projects. On-site project manager for implementation of environmental calculation and reporting software system at Shell Chemical/Motiva Refinery in Norco, LA. Provided on-site permitting support for ExxonMobil Refinery's Clean Air Project and the Chemical Plants's Initial Title V Permit Applications. Met with ExxonMobil plant personnel about emission factors, marine loading volumes, fugitive tag counts and actual vs. permitted emission tracking. Provided Access database support for numerous Title V air permit applications.

1996-1998 **Coordinator - Economic/Demographic Research Section**
City-Parish Planning Commission, Baton Rouge, LA

Coordinated implementation of the Strategic Plan for Economic Development, including meetings with the Overall Economic Development Program Committee and 25 lead agencies assisting with the plan. Administered the parish's Enterprise Zone tax incentive program. Developed population and employment projections for Department of Transportation traffic zones for the years 1995-2010 using U.S. Census block data and school enrollment data.

1995-1996 **Air Permitting Consultant**
TEC & Associates, Baton Rouge, LA

Prepared air permit applications for creosote processing facility and entered Toxic Release Inventory data for petrochemical refinery.

1992-1994 **Environmental Consultant**
Coerr Environmental Corporation, Chapel Hill, NC

Analyzed impacts of federal and state air regulations on the natural gas industry. Performed state-by-state comparison of Title V operating permit programs and analysis of grandfathered sources under Louisiana's Title V program. Researched monitoring requirements in existing MACT (Maximum Achievable Control Technology) standards. Attended meetings between EPA officials and natural gas industry representatives regarding EPA's development of oil and natural gas production MACT standard.

1988-1991 **Planner**
Louis Berger & Associates, East Orange, NJ and Raleigh, NC

Prepared environmental impact statements, socioeconomic data analysis, responses to public comments, stream encroachment permits, Section 404 wetland impact evaluations, and traffic noise modeling for the New Jersey Turnpike Authority. Prepared noise impact assessments showing existing and projected noise levels, modeled noise barrier heights and comparison of FHWA noise impact levels and cost criteria for noise abatement for numerous state highway projects in NY, PA, NC, and NV.

Summer 1987 **Planning Intern**
South Brunswick Township, South Brunswick, NJ

Compiled data from the Soil Conservation Service survey, revised township's critical area designations for aquifer recharge, wetlands and soil erosion areas and updated Environmental Resource Inventory.
